

Quality Policy

eva service gmbh

Name: POL-QM-001

Version: 1.0

Effective Date: 11.04.2025

Approved by: NO

Owner: RM

At eva service gmbh, our mission is to deliver trust, integrity, and transparency in climate certification by developing and managing robust standards and reliable certification processes.

We are at the beginning of building a structured Quality Management System and are committed to continuously improving it step by step. Our aim is to ensure that all our processes - internal and external - are understandable, effective, and reliable.

To support this, we are committed to:

- Ensuring that our services meet defined requirements and are transparent to all users of the eva standard and methods.
- Systematically documenting and reviewing our key processes and responsibilities.
- Responding constructively to feedback from our stakeholders and using it to improve our work.
- Building quality awareness among our team through practical tools, training, and good collaboration.
- Fulfilling applicable statutory, regulatory, and ISO 9001 requirements, as relevant to our operations.

Our quality approach is pragmatic: we focus on what is essential and useful. We grow our system in a way that reflects our values - cooperative, credible, regional, simplified, science-based.

This Quality Policy provides the framework for setting measurable quality objectives and is regularly reviewed as our system develops.
